Annual Report 2007-08 FEEDBACK FORM

The Goulburn Broken CMA is again seeking feedback on its Annual Report. This will allow us to better meet reader expectations in future.

The format was introduced in 2005 and is structured to inform a wide audience, from those needing a general overview of progress across all investment areas to those needing details within specific investment areas. It includes an analysis and details of overall progress across many years, which provides context for the report on annual performance. In 2007-08 we have prepared a separate 8 page Summary.

It is likely that readers will have more comments to make on sections of interest to them: please feel free to skip sections and provide attached comments on others where space doesn't permit.

Please post, email or fax this form to Megan McFarlane by **Wednesday 31st December 2008**.
