

Grants available for remnant protection and enhancement work in the Goulburn Broken Catchment

The Goulburn Broken Catchment Management Authority (CMA) has received funding from the Federal and Victorian governments to carry out environmental works on private property in the Catchment. Funding can be for:

- fencing and/or revegetation of existing native vegetation remnants and wetlands,
- revegetation of corridors (eg waterways and increasing the width of roadside corridors), and/or
- revegetation of patches (>1 ha).

What we can assist you with

- Free no obligation advice and management plans for woodlands and wetlands.
- Financial incentives for fencing to exclude or control grazing of livestock.
- Financial incentives for dams or stock troughs (alternative water points) where the original watering point is to be fenced within the protected woodland or wetland area as part of the project.
- Financial incentives for revegetation using indigenous trees and shrubs.

*Note: There are eligibility criteria to determine the level of funding available.

Interested?

You can register your interest by:

1. Completing the application form on the back of this brochure and returning it to GB CMA
PO Box 1752, Shepparton, 3632), or
2. Emailing reception@gbcma.vic.gov.au with some details about the areas you wish to protect and your contact details, or
3. Contacting the Goulburn Broken CMA Shepparton office on (03) 58227700 to register your interest.
