

GB CMA Workshop:

“Resilience”

Held on 18th November 2008 at The Connection, The Causeway between Shepparton and Mooroopna (formerly known as Makaby's).

World leaders in resilience thinking, Dr **Brian Walker** and Dr **Nick Abel** (Resilience Alliance Board Chair and Board Member respectively), guided the workshop.

Objectives of the workshop:

- To introduce participants to resilience thinking, including concepts of tipping points, thresholds and socio-ecological systems.
- To identify how resilience thinking might be applied to decision making in the Goulburn Broken.

Note that a separate in-depth workshop on “Modelling of groundwater / salinity under climate change” was held in the afternoon.

Participants:

RESILIENCE
