AUTHORITY

The Kinglake Landcare Group received a new works trailer to replace their old works trailer that was destroyed in the Black Saturday fires.

The old works trailer was stored at Kinglake Landcare Group President Roger Cook's property in Kinglake West and was incinerated along with all its contents.

The Upper Goulburn Landcare Network successfully applied for funding through the Goulburn Broken Catchment Management Authority to replace the \$5,000 lockable builder's style trailer.

The Kinglake Landcare Group was delighted to

have a trailer again and since it arrived it has been put to good use carrying tools and equipment for Landcare fire recovery works.

Kinglake Landcare Group Vice-president Mr Tim Connell offered his thanks on behalf of the group and said that although rebuilding after the fires was a massive task the group would tackle it one step and one project at a time.

For further information please contact Mark Turner or Tony Kubeil at the Goulburn Broken CMA office on 03 5820 1100.
