

Resilient **Sustainable** Agriculture

Enhancing Farmer's Skills and Knowledge

The benefits of fencing out your waterways and assessing your farm water situation: field day

Date: Friday 23rd March 9:30am - 1:00pm at

Flower Dale Farm - 427 Balmattum Siding road, Balmattum.

(Look out for the Landcare signs and please wear suitable foot wear and clothing for a paddock walk).

- *See the on farm benefits of fencing out your water way.*
- *How do I manage my water on farm, once fenced out.*
- *New technology to assist with water management.*

Gecko Clan, in conjunction with Agricultural Victoria Service and Goulburn Broken CMA are running a short information session for farmers and landholders using real case studies.

- *Water needs assessment (how much do I have in storage for the home, fire and your livestock).*
- *Evaluating water reserves (evaporation rates).*
- *Options for meeting water requirements (flow rates, pumps, tanks and troughs).*
- *Livestock management options, contingency and trigger points.*
- *Wireless Water level monitoring and solar pump demonstration.*

This is a free event with lunch provided – Please RSVP by the 21st March to Kerri Robson on: M: 0418 140 710
Email: landcare2@inet.net.au for more information go to www.geckoclan.com.au

This project is hosted by the Balmattum Sheens Creek Landcare group and jointly funded by the Gecko Clan, Agriculture Victoria, Goulburn Broken CMA and the Australian Government's National Landcare Program.
