

Attracting beneficial insects and predator birds to your farm and insect identification in the field workshop

Come along and hear how a farmer from the Cornella area is trying to use nature to reduce pest insects.

Date: Thursday 1st April 2021

Where: Cornella, Victoria

Details of where we will meet will be sent via email prior to the event.

Time: 10am – 12.30pm

Registration is mandatory for this workshop due to COVID restrictions. Attendance will be limited to 20 people.

If you are unwell, awaiting results of a COVID test or have been in a hotspot-please do not attend this event.

If you are interested in attending the event click on [this link](#) to register for this workshop or contact Karen on 0409 955 396 or email karenb@gbcma.vic.gov.au

Please wear sturdy walking shoes and bring a drink and hat.

You can also follow us on:

Carl Brown's aim is to increase beneficial insects onto his farm by providing food sources and habitat for predator insects in his pasture system.

Jessica Page from IPM Technologies will be in attendance to help people catch and identify insects in the paddock. She will share her knowledge of monitoring techniques that you can apply on your farm.
