

NATURE @ WORK

Farming with Benefits

Interested in the science of how native vegetation contributes to a healthy resilient farming system?

DATE: Friday 7th May, 9.30am - 12.00pm,

Morning tea provided.

VENUE: Matt Trewin's property, Devenish - address provided on booking

We invite you to join us to hear how:

- Farming with nature provides benefits to stock, soil and biodiversity – Matt, 5th generation farmer, will explain how they are adapting their property to gain the benefits.
- Scientific research into the value of plantings and remnant vegetation for biodiversity and resilience on farms, presented by David Smith and Angelina Siegrist, ecologists from The Australian National University's Sustainable Farms.
- The relationship between vegetation and soil health will be discussed on farm with soil scientist.

BOOK HERE or contact Kerstie from GBCMA for further details:

kerstiel@gbcma.vic.gov.au or 0437 310 840

If you are unwell or are waiting for Covid results, please stay at home, we will host more of these events

This project is supported by the Goulburn Broken CMA through funding from the Australian Government's National Landcare Program
