BACKGROUND

- A. The Victorian State Government (the "**State**") has entered into a funding agreement with the Commonwealth of Australia (the "**Commonwealth**") to improve water use efficiency and enhance the sustainability of rural water use in the Murray-Darling Basin.
- B. This has resulted in the development of the Victorian Farm Modernisation Project (the "**VFMP**") which will deliver funding to irrigators to improve farming irrigation systems on privately owned land within the Goulburn Murray Irrigation District (**GMID**). The **VFMP** complements the work being undertaken as part of the Goulburn-Murray Water Connections Project (NVIRP2).
- C. The **State** has provided funding to the **GBCMA** to act as a delivery partner for the purpose of implementing the **VFMP**.
- D. Under the **VFMP**, the **GBCMA** will acquire 55% of the permanent water savings achieved through the implementation of eligible projects. The water share acquired by the **GBCMA** will be consolidated by the **GBCMA** and transferred to the **Commonwealth**.
