## Foreword

In 2002, the Goulburn Broken XXXXXX Working Group was formed to develop a draft Goulburn Broken Dryland Salinity Management Strategy for the Goulburn Broken Catchment Management Authority (GBCMA) as part of the Regional Catchment Strategy review and the preparation of second generation salinity management plans.

The Goulburn Broken catchment was identified as one of three highest priority catchments targeted by the Murray Darling Basin Ministerial Council's xxxxxx.

Reference to funding levels in the strategy, are only indicative. The specific level of government investment is contingent on budgets and government priorities.
