**Biography:**

Teri is a Research Fellow from the Department of Civil and Environmental Engineering at The University of Melbourne. She has a PhD which focused on calculating water trading exchange rates for the Murray-Darling Basin, and has degrees in Engineering and Commerce. Teri first developed an interest in the water industry through a cadetship with Melbourne Water before becoming a strategy consultant with The Boston Consulting Group. Her research interests are now focused on reducing the uncertainties in water system measurements to improve the information available for water resource managers.
