

Goulburn Broken Catchment Management Authority
proudly presents three events with

Julian Cribb

Specialist science communicator

Julian has been involved in agricultural and rural affairs for over 40 years. As the former editor of two national and one state newspaper, Julian has received 32 awards for journalism and wide recognition for his work to bring awareness and solutions to the issues faced by farmers and rural communities.

Julian's published work includes more than 8,000 print articles, 1000 broadcasts, and eight books, including his latest book, *The Coming Famine* (University of California Press, 2010), which deals with the challenge of feeding humanity through the mid-century.

The 10 R's of Food Security

Now is the time to think hard and creatively about the solution to world food security and human health. Julian Cribb will share with us his thoughts on the 10 R's of food security: Rehydrate, Revegetate, Recarbonate, Recycle, Re-nourish, Re-energise, Reinvest, Retrain, Re-educate, Re-invest in farming
