New and innovative projects in Catchment education are highly desirable.

Guidelines:

- Priority will be given to projects that have a wide community benefit with widespread promotion of catchment issues.
- Grant applications will be accepted from non-profit community groups and schools in the dryland region of the Goulburn Broken Catchment (pictured right).
- Proposals must be in line with the priorities in the Regional Catchment Strategy or sub strategies.
- Projects must contribute primarily to awareness and education of catchment and related environmental issues.
- Projects that involve a number of groups and/or establish a partnership with the GB CMA will be given a higher priority.
- The total value of the grant requested should not exceed \$4,000. Government contributions may be up to 70% of the proposal's cost. The community group's contribution may be in cash or kind.
- A regional assessment panel comprising Broken Goulburn Implementation Committee Members and agency representatives will assess the applications during October/November 2010 and applicants will be notified by the end of November.
- Grants apply to projects run within 12 months of notification.
- A final report is required on completion of the project and the group may be required to present the results of the project to the Broken Goulburn Implementation Committee. Recipients will need to show how the project has benefited the wider community.

Projects/items not eligible for Community Education Grant funding:

- Projects that are eligible for funding under any other existing program, e.g. Waterways Grants, Environmental Management Incentives etc.
- Projects in which revegetation or pasture establishment is the primary activity.
- Maintenance or repairs to equipment.
- Large capital items such as office or field equipment.
- Projects that have been commenced, undertaken or completed before the closing date of Community Education Grants.
- Consultant/speaker, meal and/or accommodation fees will generally be given low priority.

GST Notes:

- Under the taxation system, payment of invoices to suppliers who do not quote their ABN obligates the payer to deduct 48.5% of the total amount and pay this amount to the ATO (for the credit of the supplier).
- The payment of grants by the GB CMA is in the nature of a taxable supply and therefore will be subject to GST in so far as the recipient of the grant is registered for GST.
- Please make sure you include your ABN and note that you are/are not registered for GST.

For further information, or to send your application contact:

Rhiannon Apted
Goulburn Broken Catchment Management Authority
Shop 5/10 High Street, Yea VIC 3717
